

Diva controller for Lemur for iPad

Installation:

Move the file "DIVA.jzml" to the directory where you keep your Lemur setups, launch the Lemur editor, load the "Zebra.jzml" file and transfer to your iPad. Please refer to the Lemur support videos for instructions:

<https://liine.net/en/support/lemur>

The file "com.u-he.Diva.midiassign.txt" contains the MIDI assignments that work with the Lemur setup.

ATTENTION: if you've setup your own MIDI learned messages in Diva, you need to make a backup of your "com.u-he.Diva.midiassign.txt" file (paths see below) BEFORE moving the file from this archive there.

Move the file "com.u-he.Diva.midiassign.txt" to the following locations:

Win ...\\VstPlugins\\u-he\\Diva.data\\Support\\com.u-he.Diva.midimap.txt

Mac ~/Library/Application Support/u-he/com.u-he.Diva.midimap.txt

Disclaimer:

This file is free to use in any way you see fit. If you want to distribute it, please use this link to do so:
